Rolf F. Lehminig

*Program Director*

**DIVISION OF SCIENCE RESOURCES STATISTICS**

The Division of Science Resources Statistics (SRS) fulfills the legislative mandate of the National Science Foundation Act to ...

*provide a central clearinghouse for the collection, interpretation, and analysis of data on scientific and engineering resources and to provide a source of information for policy formulation by other agencies of the Federal Government...*

To carry out this mandate, SRS designs, supports, and directs periodic surveys as well as a variety of other data collections and research projects. These surveys yield the materials for SRS staff to compile, analyze, and disseminate quantitative information about domestic and international resources devoted to science, engineering, and technology.

If you have any comments or suggestions about this or any other SRS product or report, we would like to hear from you. Please direct your comments to:

# ACKNOWLEDGMENTS

This report was prepared by Alan I. Rapoport, Senior Analyst, Science and Engineering Indicators (IND) Program, Division of Science Resources Statistics (SRS), Nation Science Foundation. Overall review and guidance were provided by Rolf F. Lehming, IND Program Director, by Mary J. Frase, Deputy Division Director, SRS, and by Jeri M. Mulrow, Senior Statistician, SRS. The following were members of the review committee for

this report: Richard Bennof, Brandon Shackelford, and Myles Boylan of NSF. Eileen Collins served as facilitator of the review committee. Rolfe W. Larson, Information and Technology Services Program (ITSP) managed editing and production of this report. John R. Gawalt, Program Director of ITSP, and his Web team handled electronic publication.
